Rich,

Happy Friday, I was just jumped by Ex. 6 - Personal Privacy who asked why the EPA has a statement on the TV Stations that there is nothing wrong with the water in Dimock and is safe to drink. She went on how you and the agency are making these people look like liars and that is not true.

I figured I would forewarn you in case you start getting a lot of call and voicemails

Have a nice weekend!!

Dave Bofinger
